

Maths for the More Able

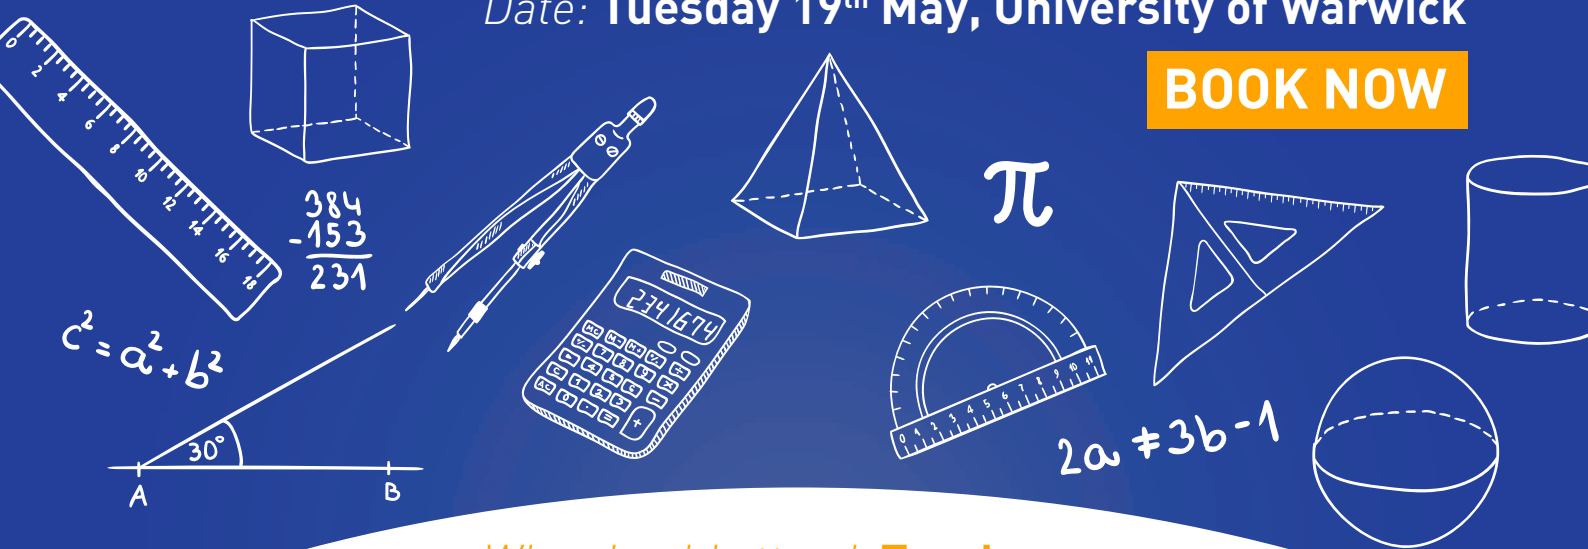

Featuring

A one day conference for primary school colleagues focusing on challenging your more able mathematicians.

Date: Tuesday 19th May, University of Warwick

BOOK NOW

Who should attend: Teachers, Maths Coordinators, G&T Coordinators

NACE, National Association for Able Children in Education, and Rising Stars invite you to a one day conference that will show how you can encourage children to think independently and develop as problem solvers. Reflecting on the needs and characteristics of more able mathematicians, the day will consider effective approaches to further challenge your learners.

The sessions will give practical, hands-on training to support able learners in mathematics and will include a range of ideas and tasks to use in the classroom. The day will give you a host of ideas and tools to take back to use in your school.

Keynote: Steve Lomax, Max the Maths

Working with over 60 schools across the country, Steve is an inspiring and entertaining speaker who is passionate about enthusing pupils to enjoy and achieve in maths at all levels.

Speakers and workshop facilitators will include:

Colleagues from Bletchley Park running workshops on coding featuring the Enigma machine

Steph King, author of Maths for the More Able and the **All New Brain Academy** Maths will provide hands-on sessions showing how to make the best of your resources

Free more able resources for every delegate

All delegates will leave with free samples of Maths for the More Able and All New Brain Academy Maths resources.

Sponsored by NACE partner:

RISING STARS

Ofsted are now looking more closely at the progress of the more able & will be asking senior leaders how they are meeting the needs of this group of pupils
