

## Member meetup: “Effective questioning in science”

Free meetup for NACE members, exploring the effective use of questioning to challenge and develop more able learners in science at all phases.

**13 November 2018, Science Museum, London SW7 3DD**

Questions are one of the most powerful tools in education. In science, great questions can be used to focus attention, stimulate ideas, prompt learners to make connections, and challenge them to think differently.

Asking effective questions is a skill, and one that can be learned and developed. Join fellow NACE members at this free event to explore the makings of a great question, how to select the right questions, and what to do with the answers.

NACE associate Ed Walsh will open the discussion, setting the scene for members to exchange ideas and experiences during the “speed-sharing” session and networking lunch. Attendees will also have the chance to learn about the Science Museum’s resources for schools, and to gain additional inspiration by exploring current exhibitions.

### Programme

- 10:30**      **Registration and refreshments**
- 10:50**      **Welcome**  
Sue Riley, NACE CEO
- 11:00**      **Effective questioning in science**  
Ed Walsh, NACE associate
- 11:45**      **Speed sharing: “one that worked”**  
Exchange of effective approaches to questioning in science
- 12:30**      **Science Museum for schools**  
Introduction to the museum’s education resources and initiatives
- 12:50**      **Membership updates**  
Vicky Eaton, NACE membership coordinator
- 13:00**      **Networking lunch and informal discussion**
- 14:00**      **Exhibition access**  
Option to explore current free exhibitions at the museum
